Clinical organisational Expertise:

- 10-years working experience in all levels of university clinic work having been Head of Department and Vice Director, University of Marburg, Clinic for Oral & Maxillofacial Surgery (Prof. Dr. Dr. A. Neff).
- Experience in outpatient dental practice with strong focus in dental implantology including all aspects of management and finance since 2002.
- Director of the D Implant Institute and Dental Clinic, Tal 4, 80331 Munich since 2015 and Surgeon in Chief for Oral & maxillofacial Surgery Herzogpark Clinic, Munich.

Entrepreneurial and economic work experience:

- 1998-2002: Prof.Dr.Dr. F.G. Draenert underwent the consulting training of The Wilkerson Group Consulting (TWG) starting in early 1998 under Dr. Prosche (Principal; now Director) and Dr. Waterloh (Senior Consultant).
- The company is specialized in healthcare consulting and well-known in business. TWG was founded by John Wilkerson a New York based business man also running Galen investment company. TWG was acquired by IBM in 1997 and initially managed without changes to build relationships to the life science industry as IBM Healthcare Consulting. The company lost the initial human resources subsequently. One well-known successor is Easton Associates Inc., New York. (see attached list for details).
- CEO Tissues&Tools GmbH, since 2008. Technology and IP management.
- Cooperation projects with medical device and pharma companies.
